PROJECTS

2024 | **Spotify Clone**
SPOTIFY
Created a fully working Spotify clone using HTML, CSS, and JavaScript. I used the Fetch API to load playlists and songs from my server. Added essential music player features like play/pause buttons, a seek bar, volume control, and a library for user playlists. The project was successfully deployed on a web hosting platform, offering a smooth and user-friendly music experience.

2024 | **Portfolio**
SUNODE
Found a secret treasure, lost the ship. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec a diam lectus.Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec a diam lectus.
